[RELEASE] Risky Business (Jan 1985)

Quote:

It's January 1985. Madonna, Cyndi Lauper and Michael Jackson are topping the charts; Billy Idol is a huge rock star; Amy Grant is trying to take Christian music mainstream; Carman is set to release a wrestling and boxing inspired album titled "The Champion"; cartoons are riding a huge wave of popularity thanks in part to G.I. Joe, He-Man, Transformers and Thundercats; the Detroit Tigers are looking to repeat as World Series Champions in Major League Baseball, but the Kansas City Royals could spoil their plans; and the wrestling world is in for a huge shakeup. But just how will that shakeup play out? It's up to you as you take on some very "risky business."

Notes on picture files:

The above links should include Idolized's Organic Free Worker Pics. If for some reason they are missing, however, then here are the links to his packs:

[Organic Free Picture Set #2](#)

Please note that if Idolized's cuts are already in justtxyank's respective picture packs (and last I looked, they were in), then you won't need to copy them over. I just thought it would be a good idea to have those links handy just in case.

Be sure to read the notepad file titled "Changes," as it details the changes that have been made for this update, as well as the extra contracts cut from the WWF and JCP. Lastly, be sure to read the ReadMe notepad file that is included (just underneath the Back Story notepad document), as it gives some details about the mod and why some things were done the way they were done.

****Note:** The above update does not have the notepad files, so ignore. I figured that everyone has it by now. I can work on one later or post here in this thread if necessary.
