The Mod Aug 1997 RW V1.1 Release

The Mod is a real world mod date August 1997 my favourite era in wrestling

This is still not finished but I will continue to update bits at a time while I'm still working on it...

Thank you to Genadi's Montreal Screwjob was used as a base so full credit for game world set up and core workers and promotions and also thank you to Hive, NWAvsWWF, Burninghamster and Cpt Charisma all of who I have transferred workers, promotions or something from one of their mods so full credit to them for anything I have borrowed

And finally a massive thank you to Mammoth, b0shey, Fatallylost, TheWho, Chizzle and anyone else who's cuts I have used

So What's going down

The Hart Foundation is running a mock in WWF, Bret is #1 villain in WWF, though Shawn Michaels who has just turned is biting at his heel's.. Steve Austin is #1 good guy, The Attitude era has arrived and the storylines have become far more in your face and grittier than in previous times.. In 1996 Bret Hart signed a record 20 year contract with WWF... In September 1997 Mr. McMahon decided he could no longer afford said contract and allowed Bret to negotiate with WCW. Bret's future is now in your hand will you keep him or let him go??

Bret Hart, WWF IC Champion Owen Hart, & WWF European Champion Davey Boy Smith defeated WWF World Champion the Undertaker, WWF Tag Team Champions Steve Austin & Dude Love in a flag match when Bret captured his team's flag after Brian Pillman prevented the Undertaker from grabbing the American flag
